**IRAQ/IRAN MILITARY SUMMARY.**

25X1

1. (S/D) This report updates the most recent<sup>1</sup> in a series of imagery-derived reports on the Iraq/Iran conflict and covers the period from [ ] The report discusses deployed ground forces in the forward area, rear garrison units (Figure 1), airfields, naval bases, commercial shipping, and POL facilities. Military unit designators and subordination (where used) are derived from collateral sources.<sup>2</sup> Additional reports will be issued as the situation changes.

25X1

**OVERVIEW**

2. (S/D) Imagery of the forward area of conflict on [ ] showed that the Iraqi force in the Khorramshahr/Abadan area had crossed the Karun River and was positioned 5 nautical miles (nm) north of Abadan. Also, the Ahvaz/Abadan pipeline was on fire.

25X1

3. (S/D) One Iraqi and six Iranian rear areas/garrisons were imaged during the period. Surface-to-air missile units were deployed in the Al Basrah area, Iraq, on [ ] At five Iranian installations, troops and equipment continued to depart.

25X1

4. (S/D) Three Iraqi and 13 Iranian airfields were imaged, and ten of Iraq's 13 BLINDER bombers were observed during the reporting period. One of the ten BLINDERS had crashed at H-3 Airfield in Iraq. Two of Iraq's six BADGER bombers were observed at Al Taqaddum Airfield on imagery of [ ] In Iran, support buildings at Tehran/Mehrabad Helicopter Field sustained damage between [ ] [ ] The Iranian F-14 bases at Shiraz International and Khatami AB Airfields were not imaged.

25X1

25X1

25X1

5. (S/D) One Iraqi and three Iranian naval facilities were imaged. No battle damage was evident at Al Basrah Naval Base in Iraq. Virtually all large buildings at Khorramshahr Naval Base in Iran had been damaged.

6. (S/D) One Iraqi and 14 Iranian POL facilities were imaged. Fires were evident at Abadan Petroleum Product Storage and Pumping Station Transfer Iran 1. Extensive damage was also seen at Tabriz POL Refinery, Iran.

**GROUND FORCE ACTIVITY****Iraq/Iran Forward Area****Khorramshahr/Abadan Area**

7. (S/D) Iraqi forces continued their drive on Abadan and Khorramshahr on [ ] (Figure 2). An Iraqi tank company and two mechanized infantry companies were east of the Karun River, advancing on Abadan from the north. This force was 5 nm north of the city.

25X1

8. (S/D) The Iraqis also continued to reposition their forces around Khorramshahr. An Iraqi force containing maneuver elements of a mechanized infantry battalion was approximately 6 nm north of Khorramshahr. Two mechanized infantry companies, one tank company, and one field artillery (FA) battery were approximately 2 nm north-northwest of the city, and a mechanized infantry platoon was observed in the northwest outskirts of Khorramshahr. One FA battalion-plus was 4 nm northwest of the city, while a second FA battalion was deployed 3 nm northwest of the city. On the west bank of the Shatt Al Arab, in Iraq, one FA battalion remained 4 nm southwest of Khorramshahr. An additional FA battery was observed 5 nm southwest of Abadan. One SA-6 battalion was deployed approximately 7 nm northwest of Khorramshahr, while a newly constructed unoccupied SA-3 site (Khorramshahr SA-3 Site, 30-29-26N 048-07-07E) was 4.8 nm northwest of the city.

9. (S/D) Although Iranian infantry was probably still in the southeast sector of Khorramshahr, west of the Karun River, the only Iranian unit observed was a tank platoon east of the river, in a residential area.

10. (S/D) In related battle area activity, the major underground oil pipeline extending north from Abadan was on fire (Figure 3), and deep scarring over the pipelines was evident. The parallel aboveground pipeline had been severed in at least ten places.

**Rear Areas****Iraq**

11. (S/D) Three SA-6 battalions, a field-deployed SA-2 site, and a mechanized infantry company were deployed in the Al Basrah area on [ ] One SA-6 battalion was 5.5 nm north-northeast of Al Basrah, at 30-35-32N 047-52-00E; the second was 9.5 nm east of the city; and the third was 10.8 nm east of the city, at 30-34-25N 047-59-30E. The mechanized infantry company was deployed 4.3 nm north-north-

25X1

**SECRET**

east of Al Basrah, and the new field-deployed SA-2 site, Al Basrah SA-2 Site, was 4 nm southeast of Al Basrah, at 30-44-10N 047-45-30E.

**Iran**

12. (S/D) At Tabriz Barracks and Training Center [redacted], two M-60 tanks, two FA guns, 25X1  
17 tank transporters, 17 MAZ-537 trucks, and 40 cargo trucks remained dispersed throughout the south-  
ern portion of the barracks area on [redacted]. Also, personnel were observed in formation near a cargo 25X1  
truck on an interior road at this installation. This may have been an indication of additional troops  
preparing to depart for the battle areas.
13. (S/D) In the Tehran area, two tank platoons and one mechanized infantry company departed  
Tehran Barracks and Brigade Headquarters Lavizan [redacted] 25X1  
[redacted] With the departure of these units, major elements of the Chieftain tank battalion and the BTR-  
60-equipped mechanized infantry battalion, as well as the M-109A1 self-propelled gun battalion, were out  
of garrison. Seven AB-214/AH-1 and two probable Jet Ranger helicopters were dispersed throughout the  
parade and athletic fields. 25X1
14. (S/D) One 60-ton and eight 20-ton heavy lift trailers departed Tehran Barracks and Special  
Forces Brigade Headquarters Bagh-E Shah [redacted] Forty-eight 25X1  
heavy lift trailers remained at the facility. One CH-47 helicopter was observed on the helipad. No change  
was observed at this facility on imagery of [redacted] 25X1
15. (S/D) An air defense battalion of 24 ZU-23 antiaircraft (AA) guns departed Tehran Barracks  
and Artillery Brigade Headquarters Jai [redacted] These AA 25X1  
guns may have departed prior to [redacted] 25X1
16. (S/D) Support vehicles of the 55th Airborne Brigade (approximately 350 trucks) remained in  
garrison at Shiraz Barracks Training Center and Brigade Headquarters [redacted] 25X1
17. (S/D) Also, four BTR-50 and three BMP armored personnel carriers departed Shiraz Barracks  
and Armor Training Center West [redacted] 25X1

**AIR ACTIVITY****Iraq**

18. (S/D) No additional bomb damage was observed at the major Iraqi bomber base at Al Taqad-  
dum Airfield [redacted] Figure 4 and Table 1) on imagery of [redacted] Aircraft observed included 25X1  
seven BLINDERS, two BADGERS, 11 FLOGGERS, nine FISHBEDs, and seven FITTERS.
19. (S/D) One BLINDER bomber crashed at H-3 Airfield [redacted] 25X1  
[redacted] (Figure 5). The wreckage of the BLINDER and a burn scar were adjacent to the west end of the main  
runway. Other aircraft at the airfield on [redacted] included two BLINDERS, 15 FITTERS, one CUB, one 25X1  
COOKPOT, and three HIND and three Super Frelon helicopters. The airfield remained operational and  
undamaged. 25X1

**Iran**

20. (S/D) On imagery of [redacted] craters were evident on both ends of the parallel runways and  
in the support area at Omidyeh Airfield AB [redacted], southeast of Ahvaz (Figure 4 and Table 1). 25X1  
Temporary repairs to the runways were complete, and the airfield appeared to be operational, although no  
aircraft were observed. 25X1
21. (S/D) There was no new damage to any of the facilities at Tehran/Mehrabad International  
Airfield [redacted] and the airfield was operational. A pair of 35mm AA guns was 25X1  
newly deployed at the west end of the runways. Aircraft observed included 19 F-4s, 16 F-5s, ten C-130s,  
one KC-747, one 747, three KC-707s, one Caribou, and one AH-1, four CH-47, and two AB-214 helicop-  
ters. One of the 747 tankers (KC-747) appeared to have possibly sustained fire damage.
22. (S/D) Two support buildings had been destroyed, and two had been damaged at Tehran/Mehra-  
bad Helicopter Field [redacted] (Figure 6). Two AB-214 helicopters 25X1  
were parked in front of the main hangar on that date.

**NAVAL ACTIVITY****Iraq**

23. (S/D) One Osa II missile attack boat (PTG), two SO-1 small submarine chasers (PCLs), one T-43 fleet  
minesweeper (MSF), and two Polnocny medium amphibious assault landing ships (LSMs) were dispersed in the  
Shatt Al Arab adjacent to Al Basrah Naval Base [redacted] (Figure 4). Three P-6 motor 25X1  
torpedo boats (PTs) and three Yevgenya inshore minesweepers (MSIs) were moored at the base. Additionally,  
two P-6 PTs were moored at a quay 2 nm upriver from the naval base.

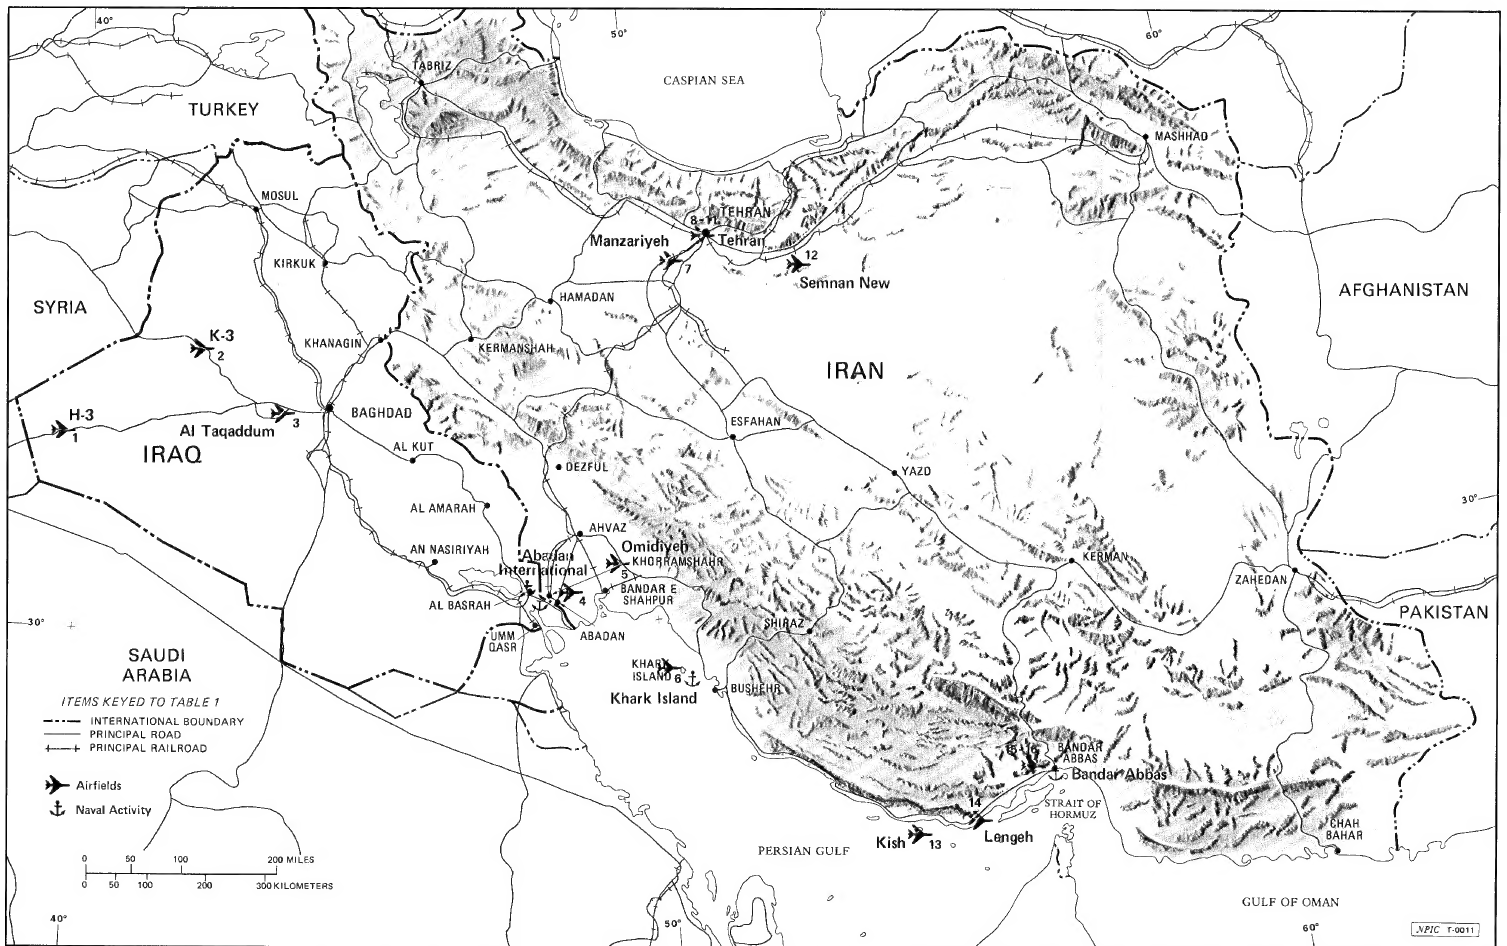

FIGURE 4. IRAQI/IRANIAN AIR AND NAVAL FACILITIES

Reverse side blank  
SECRET

**SECRET****Iran**

24. (S/D) Heavy battle damage was observed at Khorramshahr Naval Base Repair and Storage Facility [redacted] Virtually every large building at the naval facility had been damaged, and one of Iran's two hydrofoils had been sunk. One MK III patrol boat (PB) and three derelict utility landing craft (LCUs) remained at the base. 25X1

25. (S/D) Four Wellington patrol air cushion vehicles (PACVs), one possible Wellington PACV, and three Winchester PACVs were at Khark Island Hovercraft Base [redacted] 25X1  
Two additional Wellington PACVs and one Winchester PACV had been beached on the northern portion of the island (northwest of the hovercraft base), over an area containing part of an underground oil pipeline.

**Strait of Hormuz**

26. (S/D) One Sumner guided missile destroyer (DDG) and two Wellington PACVs departed Bandar Abbas Port Facilities Suru [redacted], and one Bandar Abbas small replenishment oiler (AORL) arrived at the port between [redacted] A 35mm Oerlikon AA site was newly positioned at the mouth of the harbor during this time frame. Vessels in port on [redacted] included one Sumner DDG; one Battle DDG; two Vosper MK-5 (SAAM) guided missile frigates (FFGs); two La Combattante-IIIB PTGs; two PGM-71-class motor gunboats (PGMs); six MK-III PBs; six river/roadstead patrol boats (PBRs), one of which was leaving the harbor; two Hengham amphibious vehicle landing ships (LSTs), one of which had been moved to a mooring southwest of the harbor since [redacted] two LCUs; one Bandar Abbas AORL; one Amphion repair ship (AR); one auxiliary repair dock (ARD-T); and one Kangan-class water carrier (AWK). 25X1  
25X1  
25X1

27. (S/D) Increased defenses were observed at Bandar Abbas International Airfield [redacted] on imagery of [redacted] a 35mm AA site had been newly occupied, and defensive walls had been constructed in front of the four alert hangarages at the northeast end of the airfield. One Falcon; one small, straight-wing aircraft; and one AB-214 helicopter were present. 25X1  
25X1

28. (S/D) No damage to Jazireh Ye Qeys Port Facility North [redacted] at Kish Island was observed on imagery of [redacted] One replenishment ship was present. 25X1  
25X1

**COMMERCIAL SHIPPING****Shatt Al Arab Area**

29. (S/D) The Shatt Al Arab and port facilities along the river from 30-34-25N 047-46-30E to 30-22-50N 048-10-40E were imaged on [redacted] Fifty-three medium freighters, 18 small/coastal freighters, two container ships, one medium tanker, and two floating drydocks (ARD-Ds) were either at the port facilities or in mid-river. 25X1

30. (S/D) Fourteen medium freighters (including one Soviet Leninskiy Komsomol Class), two container ships, one medium tanker, and one small/coastal freighter remained moored at the quay at Al Basrah Port Facilities [redacted] Iraq, on [redacted] Four medium freighters also remained at the quay of Khor Al Zubayr Port Facilities [redacted] Iraq. 25X1  
25X1

31. (S/D) Khorramshahr Port Facilities [redacted] Iran, had been almost totally destroyed by [redacted] Two transit sheds were the only buildings that had not sustained heavy damage. At least 75 per cent of the southernmost quay had been destroyed, with only the pilings remaining. Fires continued to burn at two warehouses. Only medium freighters remained at the port; however, two medium freighters and five small/coastal freighters were dead in the water adjacent to the Khorramshahr Port Facilities. One of the two medium freighters was on fire and lying low in the water perpendicular to the channel, effectively blocking the Shatt Al Arab (Figure 7). 25X1  
25X1

32. (S/D) No battle damage was observed at either the quay or support building at Abadan Port Facilities [redacted] Iran, on imagery of [redacted] One small/coastal freighter remained moored at the quay. 25X1

33. (S/D) The remaining vessels were at the following locations: Eight small/coastal freighters (including one on fire at 30-25-00N 048-10-35E), one medium freighter, and one ARD-D were dead in the water in a segment of the Shatt Al Arab between 30-25-50N 048-09-50E and 30-22-50N 048-10-40E on [redacted] 25X1  
25X1  
[redacted] Three small/coastal freighters, one ARD-D, and 29 medium freighters were positioned in the center of the river between 30-33-30N 047-48-00E and 30-27-35N 048-01-55E. Three of the 29 medium freighters had been berthed at Khorramshahr Port Facilities [redacted] (one was on fire at that time) and had subsequently been moved upstream. Another of the 29 medium freighters had drifted 3 nm downstream, to 30-29-40N 047-52-20E since [redacted] 25X1  
25X1

**SECRET****POL FACILITIES**

34. (S/D) One Iraqi and 14 Iranian POL-related facilities were observed during the reporting period (Figure 8 and Table 2).

**Iran**

35. (S/D) Smoke continued to obscure much of Abadan Petroleum Product Storage and Pumping Station Transfer Iran 1 [ ] Eight POL storage tanks and several pipelines were burning. 25X1

36. (S/D) No further significant damage to Abadan Petroleum Refinery NIOC on the Shatt Al Arab was observed on imagery of [ ] Since the beginning of hostilities, ten large, vertical POL storage tanks have been destroyed, and at least five others have sustained damage. Nineteen small, vertical storage tanks have been damaged, and one has been destroyed. A pipeline has been damaged. The cracking unit has not sustained any visible damage. 25X1

37. (S/D) Extensive bomb damage was observed at Tabriz POL Refinery [ ] on imagery of [ ] (Figure 9). One floating-top POL tank and adjacent pipelines, the generator hall, two support buildings, one vertical tank in the power plant, the compressor house, and an administration building were damaged. Probable damage to a cooling tower was also observed. 25X1  
25X1

**OTHER****Iran**

38. (S/D) No unusual activity was observed at or near the US Embassy Tehran [ ] on imagery of [ ] Traffic patterns throughout the city appeared to be normal. Long gas lines in Tehran resulted in large traffic jams scattered throughout the city on [ ] 25X1  
25X1  
25X1

39. (S/D) Five rows of six people each were seen on the tennis court of the American Consulate Tabriz [ ] three additional people were also on the court, near a possible entrance. Nineteen sedans, one van-bodied truck, and one other truck were scattered throughout the western half of the installation. No bomb damage was observed. 25X1
